

Pharmacy Update (May 2017): Medicaid LTC/SNF Billing

Fidelis Care New York

RXBIN: 004336

RXPCN: ADV

RXGRP: RX6460

Managed Medicaid Plans (MMP) have different processes for submitting pharmacy drug claims for **skilled nursing services**(SNF)/long term care (LTC).

IMPORTANT: This notice is to remind you that drug coverage for Fidelis Care Medicaid members, who reside in a skilled nursing facility (SNF) and who receive care at levels 1, 2, 3, and 4, are to be billed to, and paid for, by the SNF or LTC facility.

Drug coverage for SNF Levels 1, 2, 3 and 4, is included in the facilities' per diem rate contract provisions with Fidelis Care.

Residency Point-of-Sale edits are not in place for pharmacy claims submitted through CVS Caremark, for Fidelis Care's Medicaid members residing in a SNF/LTC. Therefore, it is important that pharmacies confirm the appropriate billing process for members' drug coverage with each SNF/LTC facility, prior to submitting claims through CVS Caremark.

Please contact the SNF/LTC if you have questions about the process for identifying members whose services are included in the facility per diem, or if you need additional information on claim billing submissions.
