

Upcoming Changes to Fully Integrated Duals Advantage Formulary

Fidelis may add or remove drugs from our formulary during the year. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug and/or move a drug to a higher cost-sharing tier, we will notify you of the change at least 60 days before the date the change becomes effective. However, if the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we may immediately remove the drug from our formulary and notify you as soon as possible.

The table below outlines upcoming changes to our formulary that may impact you.
