

## HealthierLife (HARP) Coverage and the Behavioral Health Benefit Carve-in: Updated 9/6/2017

Fidelis Care is proud to be your partner in quality healthcare for your patients and our members.

Fidelis Care Pharmacy Services is pleased to provide our members with additional options to obtain certain behavioral health medications, including long-acting injectable antipsychotics and Vivitrol® (naltrexone ER injectable suspension). Please take note of the following changes to our processes, which will take effect for members enrolled in both HealthierLife (HARP) and Medicaid Managed Care (MMC) health plans:

### ***Injectable Antipsychotics Prior Authorizations***

- Long-acting injectable antipsychotics, naloxone vials/syringes, and Vivitrol will be available as both Medical and Pharmacy benefits
- All requests for first-generation (typical) long-acting injectable antipsychotics ***will not require*** Prior Authorization when requested as a pharmacy benefit
- All requests for second-generation (atypical) long-acting injectable antipsychotics ***will require*** a Prior Authorization when requested as a pharmacy benefit
- CVS Caremark Specialty Pharmacy will be the preferred provider of second-generation long-acting injectable antipsychotics for Fidelis Care Medicaid Managed Care and HealthierLife members.
- You may also obtain your medication at any Specialty Pharmacy, as long as they are part of the Fidelis Care network.
  - Please follow the protocol below for obtaining these medications for your patients: Fax a completed Authorization Request Form to Fidelis Care Pharmacy Services at 1-877-533-2405. Blank copies are available at <http://www.fideliscare.org/Portals/0/DocumentLibrary/Providers/Pharmacy%20Services/Prescription%20Medication%20Prior%20Authorization%20Request%20Form.pdf>
  - Once approval for the medication is obtained, if you choose to you may contact CVS Caremark Specialty Pharmacy by:
    - Faxing a completed Enrollment Form to 1-800-567-8000. Blank copies are available at [https://www.fideliscare.org/Portals/0/DocumentLibrary/Providers/ Pharmacy%20Services/CVSCS%20Enrollment%20Form.pdf](https://www.fideliscare.org/Portals/0/DocumentLibrary/Providers/Pharmacy%20Services/CVSCS%20Enrollment%20Form.pdf)
    - AND***
    - Calling in a prescription for the medication at 1-800-238-7828, *option 3 then option 2 then option 9*, and indicate that an approval has already been granted by Fidelis Care
    - OR***
    - Electronically prescribing the medication by selecting “CVS Health Specialty Pharmacy” located at 105 Mall Blvd, Monroeville, PA
  - CVS Caremark Specialty Pharmacy will contact your practice after processing the prescription to confirm the location and preferred date/time for the medication to be delivered (please allow at least one business day for completion).

***Opioid Reversal Agents Prior Authorization and Quantity Limits***

- Vivitrol, for treatment of drug and/or alcohol abuse, ***will not require*** a Prior Authorization when requested as a pharmacy benefit
- Naloxone vials and syringes will have a quantity limitation of 2 units per 30-days when filled as a pharmacy benefit
- Narcan nasal spray will have a quantity limitation of 4 units per 30-days when filled as a pharmacy benefit

Please contact Fidelis Care Pharmacy Services with any questions, or concerns you may have at 1-888-FIDELIS (1-888-343-3547), and select the prompt for Pharmacy Services. You may also contact us via fax at 1-877-533-2405.
