

Update on HealthierLife (HARP) Coverage and the Behavioral Health Benefit Carve-in: 12/1/2016

Fidelis Care is proud to be your partner in quality healthcare for your patients and our members.

Beginning on 12/1/2016, Fidelis Care Pharmacy Services is happy to provide our members with additional options to obtain certain behavioral health medications, including long-acting injectable antipsychotics and Vivitrol® (naltrexone ER injectable suspension). Please take note of the following changes to our processes, which will take effect for members enrolled in both HealthierLife and Medicaid Managed Care (MMC):

- Long-acting injectable antipsychotics, naloxone vials/syringes, and Vivitrol will be available as both medical and pharmacy benefits
- All requests for first-generation (typical) long-acting injectable antipsychotics **will not require** Prior Authorization when requested as a pharmacy benefit
- All requests for second-generation (atypical) long-acting injectable antipsychotics **will require** a Prior Authorization when requested as a pharmacy benefit
- Vivitrol, for treatment of drug and/or alcohol abuse, **will not require** a Prior Authorization when requested as a pharmacy benefit
- CVS Caremark Specialty Pharmacy will be the preferred provider of second-generation long-acting injectable antipsychotics for Fidelis Care Medicaid Managed Care and HealthierLife members. Please follow the protocol below for obtaining these medications for your patients:
 - Fax a completed Medication Request Form to Fidelis Care Pharmacy Services at 1-877-533-2405. Blank copies are available at <http://www.fideliscare.org/Portals/0/DocumentLibrary/Providers/Pharmacy%20Services/Prescription%20Medication%20Prior%20Authorization%20Request%20Form.pdf>
 - Once approval for the medication is granted, contact CVS Caremark Specialty Pharmacy
 - i. Call in a prescription for the medication at 1-800-238-7828, option 3, and indicate that an approval has already been granted by Fidelis Care
 - ii. Fax a completed Enrollment Form to 1-800-567-8000. Blank copies are available at <https://www.fideliscare.org/Portals/0/DocumentLibrary/Providers/Pharmacy%20Services/CVSCS%20Enrollment%20Form.pdf>
 - iii. Electronically prescribe the medication by selecting “CVS Health Specialty Pharmacy” located at 105 Mall Blvd, Monroeville, PA
 - CVS Caremark Specialty Pharmacy will contact your practice after processing the prescription to confirm the location and preferred date/time for the medication to be delivered (please allow at least one business day for completion)
- Naloxone vials and syringes will have a quantity limitation of 2 units per 30-days when requested as a pharmacy benefit
- Narcan nasal spray will have a quantity limitation of 4 units per 30-days when filled as a pharmacy benefit

Please contact the Fidelis Care Pharmacy Services Department with any questions, comments, or concerns at 1-888-FIDELIS (1-888-343-3547), and select the prompt for Pharmacy Services. You may also contact us via fax at 1-877-533-2405.
