Pharmacy Update (March 2019): Medicaid LTC/SNF Billing

Fidelis Care New York
RXBIN: 004336
RXPCN: ADV
RXGRP: RX6460

Managed Medicaid Plans (MMP) have different processes for submitting pharmacy drug claims for skilled nursing services (SNF)/long term care (LTC).

IMPORTANT: This notice is to remind you that drug coverage for oral drugs and supplies, for Fidelis Care Medicaid members, who reside in a skilled nursing facility (SNF) and who receive care at levels 1, 2, 3, and 4, are to be billed to, and paid for, by the SNF or LTC facility.

Coverage of oral drugs and supplies are included in the facilities’ per diem rate contract provisions with Fidelis Care, for SNF Levels 1, 2, 3 and 4,

Drugs not included in the SNF per diem rate should be billed to Fidelis Care. For Fidelis Care’s members residing in a SNF/LTC, residency Point Of Sale edits are not in place for pharmacy billable claims submitted through CVS Caremark. It is important that pharmacies confirm the appropriate billing process for the member’s drug coverage with each SNF/LTC facility, prior to submitting claims through CVS Caremark.

Please contact the SNF/ LTC if you have questions about the process for identifying members whose services are included in the facility per diem, or if you need additional information on claim billing submissions.
